

## ICT712 INFORMATION TECHNOLOGY PROJECT MANAGEMENT T226

All information in the Subject Outline is correct at the time of approval. KOI reserves the right to make changes to the Subject Outline if they become necessary. Any changes require the approval of the KOI Academic Board and will be formally advised to those students who may be affected by email and via Moodle.

Information contained within this Subject Outline applies to students enrolled in the trimester as indicated

### 1. General Information

#### 1.1 Administrative Details

| Associated HE Award(s)                                                                          | Duration    | Level        | Subject Coordinator                                                                                                                                                                  |

| Master of Information Technology (MIT)<br><br>Graduate Diploma of Information Technology (GDIT) | 1 trimester | Postgraduate | Dr Fadi Kotob<br><a href="mailto:fadi.kotob@koi.edu.au">fadi.kotob@koi.edu.au</a><br>P: +61 (2) 9283 3583<br>L: 7-11, 11 York Street.<br>Consultation: via Moodle or by appointment. |

#### 1.2 Core/Elective

This subject is

- a core subject for the Master of Information Technology (MIT)
- a core subject for the Graduate Diploma of Information Technology (GDIT)

#### 1.3 Subject Weighting

Indicated below is the weighting of this subject and the total course points

| Subject Credit Points | Total Course Credit Points                      |
|-----------------------|-------------------------------------------------|
| 4                     | MIT (64 Credit Points); GDIT (32 Credit Points) |

#### 1.4 Student Workload

Indicated below is the expected student workload per week for this subject

| No. Timetabled Hours/Week*                      | No. Personal Study Hours/Week** | Total Workload Hours/Week*** |
|-------------------------------------------------|---------------------------------|------------------------------|
| 3 hours/week plus supplementary online material | 7 hours/week                    | 10 hours/week                |

\* Total time spent per week at lectures and tutorials

\*\* Total time students are expected to spend per week in studying, completing assignments, etc.

\*\*\* Combination of timetable hours and personal study

**1.5 Mode of Delivery** Classes will be face-to-face or hybrid. Certain classes will be online (e.g., special arrangements).

**1.6 Pre-requisites** Satisfactory completion of four subjects

### 1.7 General Study and Resource Requirements

- Students are expected to attend classes with the weekly worksheets and subject support material provided in Moodle. Students should read this material before coming to class to improve their ability to participate in the weekly activities.
- Students will require access to the internet and their KOI email and should have basic skills in word processing software such as MS Word, spreadsheet software such as MS Excel and visual presentation software such as MS PowerPoint.
- Computers and WIFI facilities are extensively available for student use throughout KOI. Students are encouraged to make use of the campus Library for reference materials.

*Software resource requirements specific to this subject:* MS Imagine, Office 365, MS Visio, MS Project, Slack, Trello.

### 1.8 Academic Advising

Academic advising is available to students throughout teaching periods including the exam weeks. As well as requesting help during scheduled class times, students have the following options:

- Consultation times: A list of consultation hours is provided on the homepage of Moodle where appointments can be booked.
- Subject coordinator: Subject coordinators are available for contact via email. The email address of the subject coordinator is provided at the top of this subject outline.
- Academic staff: Lecturers and Tutors provide their contact details in Moodle for the specific subject. In most cases, this will be via email. Some subjects may also provide a discussion forum where questions can be raised.
- Head of Program: The Head of Program is available to all students in the program if they need advice about their studies and KOI procedures.
- Vice President (Academic): The Vice President (Academic) will assist students to resolve complex issues (but may refer students to the relevant lecturers for detailed academic advice).

## 2. Academic Details

### 2.1 Overview of the Subject

This subject presents project management concepts and frameworks aligning with PMBOK and Agile methodologies. Students will develop the skills to scope an ICT project, prepare proposals and manage a project on time and within budget. The group project allows students to apply their project management and communication skills in a project life cycle through working on an IT project within a dedicated team. Key issues, such as legal, ethical, time management and social issues, related to contemporary project management methodologies are analysed and discussed.

### 2.2 Graduate Attributes for Postgraduate Courses

Graduates of postgraduate courses from King's Own Institute will achieve the graduate attributes expected from successful completion of a postgraduate degree under the Australian Qualifications Framework (2<sup>nd</sup> edition, January 2013). Graduates at this level will be able to apply advanced body of knowledge from their major area of study in a range of contexts for professional practice or scholarship and as a pathway for further learning.

King's Own Institute's generic graduate attributes for a master's level degree are summarised below:

|                                                                                     | KOI Postgraduate Degree Graduate Attributes | Detailed Description                                                                                                                                                                                                                                              |
|-------------------------------------------------------------------------------------|---------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|    | Knowledge                                   | Current, comprehensive and coherent knowledge, including recent developments and applied research methods                                                                                                                                                         |
|    | Critical Thinking                           | Critical thinking skills to identify and analyse current theories and developments and emerging trends in professional practice                                                                                                                                   |
|    | Communication                               | Communication and technical skills to analyse and theorise, contribute to professional practice or scholarship, and present ideas to a variety of audiences                                                                                                       |
|    | Research and Information Literacy           | Cognitive and technical skills to access and evaluate information resources, justify research approaches and interpret theoretical propositions                                                                                                                   |
|    | Creative Problem Solving Skills             | Cognitive, technical and creative skills to investigate, analyse and synthesise complex information, concepts and theories, solve complex problems and apply established theories to situations in professional practice                                          |
|   | Ethical and Cultural Sensitivity            | Appreciation and accountability for ethical principles, cultural sensitivity and social responsibility, both personally and professionally                                                                                                                        |
|  | Leadership and Strategy                     | Initiative, leadership skills and ability to work professionally and collaboratively to achieve team objectives across a range of team roles<br>Expertise in strategic thinking, developing and implementing business plans and decision making under uncertainty |
|  | Professional Skills                         | High level personal autonomy, judgement, decision-making and accountability required to begin professional practice                                                                                                                                               |

Across the courses, these skills are developed progressively at three levels:

- **Level 1 Foundation** – Students learn the skills, theories and techniques of the subject and apply them in stand-alone contexts
- **Level 2 Intermediate** – Students further develop skills, theories and techniques of the subject and apply them in more complex contexts, beginning to integrate the application with other subjects
- **Level 3 Advanced** – Students have a demonstrated ability to plan, research and apply the skills, theories and techniques of the subject in complex situations, integrating the subject content with a range of other subject disciplines within the context of the course.

Generally, skills gained from subjects in the Graduate Certificate and Graduate Diploma are at levels 1 and 2 while other subjects in the Master's degree are at level 3.

## 2.3 Subject Learning Outcomes

Listed below, are key knowledge and skills students are expected to attain by successfully completing this subject:

| Subject Learning Outcomes | Contribution to Graduate Attributes |
|---------------------------|-------------------------------------|
|---------------------------|-------------------------------------|

|                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| a) Evaluate project requirements, phases, techniques and processes in the project development life cycle                     |                                                                                                                                                                                                                                                                 |
| b) Apply IT project management concepts, methodologies, techniques and tools to manage IT projects                           |     <br> |
| c) Compare and contrast alternative project management methodologies according to the requirements of an IT industry project |     <br> |
| d) Identify and employ ethical practices of project management                                                               |                                                                                                                                                                              |

## 2.4 Subject Content and Structure

Below are details of the subject content and how it is structured, including specific topics covered in lectures and tutorials. Reading refers to the text unless otherwise indicated.

*Weekly Planner:*

| Week (beginning)  | Topic covered in each week's lecture                                         | Reading(s)                                        | Expected work as listed in Moodle                                                                                                                                                                              |
|-------------------|------------------------------------------------------------------------------|---------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Week 1<br>29 June | Modern project management.<br>Organisational strategy and project selection. | Chs.1, 2<br>[E. Larson]                           | Group projects will be introduced in the class, and groups will be created.<br><br>Chapter review questions on general project management concepts are discussed.<br><br>Formative not graded                  |

## 2.5 Public Holiday Amendments

Please note: KOI is closed on all scheduled NSW Public Holidays.

There are no public holidays during the teaching weeks of this trimester.

## 2.6 Review of Grade, Deferred Exams & Supplementary Exams/Assessments

### *Review of Grade:*

There may be instances when you believe that your final grade in a subject does not accurately reflect your performance against the marking criteria. Section 8 of the *Assessment and Assessment Appeals Policy* ([www.koi.edu.au](http://www.koi.edu.au)) describes the grounds on which you may apply for a Review of Grade.

If you have a concern about your marks and you are unable to resolve it with the Academic staff concerned, then you can apply for a formal Review of Grade as explained in section 3.2(e) Appeals Process below. Please note the time limits for requesting a review. Please ensure you read the Review of Grade information before applying.

### *Review of Grade Day:*

Final exam scripts will not normally be returned to students. Students can obtain feedback on their exam performance and their results for the whole subject at the Review of Grade Day. KOI will hold the Review of Grade Day for all subjects studied in T226. **The ROG day will be announced at a later date and the students will be notified through Moodle/KOI email.**

Only final exams and whole subject results will be discussed as all other assessments should have been reviewed during the trimester. Further information about Review of Grade Day will be available through Moodle.

If you fail one or more subjects and you wish to consider applying for a Review of Grade you are **STRONGLY ADVISED to** attend the Review of Grade Day. You will have the chance to discuss your final exam and subject result with your lecturer, and will be advised if you have valid reasons for applying for a Review of Grade (see Section 3.2 below and the *Assessment and Assessment Appeals Policy*).

A formal request for a review of grade may not be considered unless you first contact the subject coordinator to discuss the result.

### *Deferred Exams:*

If you wish to apply for a deferred exam because you are unable to attend the scheduled exam, you should submit the Assignment Extension / Exam Deferment Form available by contacting [academic@koi.edu.au](mailto:academic@koi.edu.au) as soon as possible, *but no later than three (3) working days of the assessment due date.*

If you miss your mid-trimester or final exam there is no guarantee you will be offered a deferred exam.

You must apply within the stated timeframe and satisfy the conditions for approval to be offered a deferred exam (see Section 8.1 of the *Assessment and Assessment Appeals Policy and the Application for Assignment Extension or Deferred Exam Forms*). In assessing your request for a deferred exam, KOI will take into account the information you provide, the severity of the event or circumstance, your performance on other items of assessment in the subject, class attendance and your history of previous applications for special consideration.

Deferred mid-trimester exams will be held before the end of week 9. Deferred final exams will be held on two days during week 1 or 2 in the next trimester. You will not normally be granted a deferred exam on the grounds that you mistook the time, date or place of an examination, or that you have made arrangements to be elsewhere at that time; for example, have booked plane tickets.

If you are offered a deferred exam, but do not attend *you will be awarded 0 marks for the exam*. This may mean it becomes difficult for you to pass the subject. If you apply for a deferred exam within the required time frame and satisfy the conditions you will be advised by email (to your KOI student email address) of the time and date for the deferred exam. Please ensure that you are available to take the exam at this time.

Marks awarded for the deferred exam will be the marks awarded for that item of assessment towards your final mark in the subject.

#### *Supplementary Assessments (Exams and Assessments):*

A supplementary assessment may be offered to students to provide a final opportunity to demonstrate successful achievement of the learning outcomes of a subject. *Supplementary assessments are only offered at the discretion of the Board of Examiners*. In considering whether or not to offer a supplementary assessment, KOI will take into account your performance on all the major assessment items in the subject, your attendance, participation and your history of any previous special considerations.

If you are offered a supplementary assessment, you will be advised by email to your *KOI student email address* of the time and due date for the supplementary assessment – supplementary exams will normally be held at the same time as deferred final exams during week 1 or week 2 of the next trimester.

You must pass the supplementary assessment to pass the subject. The maximum grade you can achieve in a subject based on a supplementary assessment is a PASS grade.

If you:

- are offered a supplementary assessment, but fail it;
  - are offered a supplementary exam, but do not attend; or
  - are offered a supplementary assessment but do not submit by the due date;
- you will receive a FAIL grade for the subject.

Students are also eligible for a supplementary assessment for their final subject in a course where they fail the subject but have successfully completed all other subjects in the course. You must have completed all major assessment tasks for the subject and obtained a passing mark on at least one of the major assessment tasks to be eligible for a supplementary assessment.

If you believe you meet the criteria for a supplementary assessment for the final subject in your course, but have not received an offer, complete the *Complaint, Grievance, Appeal Form* and send your form to [reception@koi.edu.au](mailto:reception@koi.edu.au). The deadline for applying for supplementary assessment is the Friday of the first week of classes in the next trimester.

## **2.7 Teaching Methods/Strategies**

Briefly described below are the teaching methods/strategies used in this subject:

- o *Lectures* (1 hours/week) are conducted in seminar style and address the subject content, provide motivation and context and draw on the students' experience and preparatory reading.
- o *Tutorials* (2 hours/week) include class discussion of case studies and research papers, practice sets and problem-solving and syndicate work on group projects. Tutorials often include group exercises and so contribute to the development of teamwork skills and cultural understanding. Tutorial participation is an essential component of the subject and contributes to the development of many of the graduate attributes (see section 2.2 above). Tutorial participation contributes towards the assessment in many subjects (see details in Section 3.1 for this subject). Supplementary tutorial material such as case studies, recommended readings, review questions etc. will be made available each week in Moodle.
- o *Online* teaching resources include class materials, readings, model answers to assignments and exercises and discussion boards. All online materials for this subject as provided by KOI will be found in the Moodle page for this subject. Students should access Moodle regularly as material may be updated at any time during the trimester
- o *Other contact* - academic staff may also contact students either via Moodle messaging, or via email to the email address provided to KOI on enrolment.

## 2.8 Student Assessment

Assessment is designed to encourage effective student learning and enable students to develop and demonstrate the skills and knowledge identified in the subject learning outcomes. Assessment tasks during the first half of the study period are usually intended to maximise the developmental function of assessment (formative assessment). These assessment tasks include weekly tutorial exercises (as indicated in the weekly planner) and low stakes graded assessments (as shown in the graded assessment table). The major assessment tasks where students demonstrate their knowledge and skills (summative assessment) generally occur later in the study period. These are the major graded assessment items shown in the graded assessment table.

Final grades are awarded by the Board of Examiners in accordance with KOI's Assessment and Assessment Appeals Policy. The definitions and guidelines for the awarding of final grades are:

- o *HD High distinction* (85-100%): an outstanding level of achievement in relation to the assessment process.
- o *D Distinction* (75-84%): a high level of achievement in relation to the assessment process.
- o *C Credit* (65-74%): a better than satisfactory level of achievement in relation to the assessment process.
- o *P Pass* (50-64%): a satisfactory level of achievement in relation to the assessment process.
- o *F Fail* (0-49%): an unsatisfactory level of achievement in relation to the assessment process.
- o *FW*: This grade will be assigned when a student did not submit any of the compulsory assessment items.

Provided below is a schedule of formal assessment tasks and major examinations for the subject.

| Assessment Type                                                                 | When Assessed                              | Weighting                                              | Learning Outcomes Assessed |
|---------------------------------------------------------------------------------|--------------------------------------------|--------------------------------------------------------|----------------------------|
| Assessment 1: Tutorial Participation - Individual                               | Week 2 to Week 11                          | 15%                                                    | a, b, c, d                 |
| Assessment 2: Quiz (In-class)                                                   | Week 6                                     | 15%                                                    | a, b                       |
| Assessment 3: Group project (3500 + - 10%)<br>Presentation                      | Week 10 – Report<br>Week 11 - Presentation | 35%<br>Group Report 25%<br>Individual Presentation 10% | a, b, c, d                 |
| Assessment 4: Final examination<br>On-campus:<br>2 hours + 10 mins reading time | Final exam period                          | 35%                                                    | a, b, d                    |

**Requirements to Pass the Subject:**

To gain a pass or better in this subject, students must gain a *minimum of 50%* of the total available subject marks.

## 2.9 Prescribed and Recommended Readings

Provided below, in formal reference format, is a list of the prescribed and recommended readings.

**Prescribed Texts:**

Larson, E.W., and Gray., C.F. (2024). *Project Management: A Socio-Technical Approach, 9th edition*. McGraw-Hill. Available from: ProQuest Ebook Central. ISBN: 9781260579567.

**Recommended Readings:**

Blair, A.A. (2020) *Agile Project Delivery: A Practical Approach for Corporate Environments Beyond Software Development*. Canadian Scholars Press. Available from: ProQuest Ebook Central. ISBN: 9781260579567.

Cobb, G.C. (2023) *The Project Manager's Guide to Mastering Agile: Principles and Practices for an Adaptive Approach*. New Jersey: John Wiley and Sons. ISBN: 9781119931355.

Pearson, N., Larson, E.W. and Gray, C.F. (2022) *Project Management in Practice*. Sydney: McGraw Hill. ISBN: 9781760427092.

## 3. Assessment Details

### 3.1 Details of Each Assessment Item

The assessments for this subject are described below. The description includes the type of assessment, its purpose, weighting, due date and submission requirements, the topic of the assessment, details of the task and detailed marking criteria, including a marking rubric for essays, reports and presentations. Supplementary assessment information and assistance can be found in Moodle.

KOI expects students to submit their own work in both assignments and exams, or the work of their group in the case of group assignments. Material in assignments which comes from the work of others must be appropriately acknowledged.

#### Assessment 1

Assessment type: **Tutorial Participation – Individual**

**Purpose:** This assessment is designed to reinforce the subject content taught each week through questions and discussions of various management topics. This contributes to learning outcomes a, b, c and d.

**Value:** 15%

**Due date:** Weeks 2 to 11

**Task details:** Task details will be advised in class

Students are required to actively participate in class activities. The quality of the comments will be valued more than quantity. The class participation will be assessed over 10 weeks (Weeks 2 to 11) with a total achievable result of 15 marks. Considering the importance of the class activities and the fact that the class participation is evaluated, the attendance of all classes is very important.

**Submission:** The tutorial needs to be submitted on Moodle.

**Marking Rubric for Assessment: 1**

**Value:** 15%

| Grade                                            | Fail<br>(0 – 49%)                                                                   | Pass<br>(50 – 64%)                                                         | Credit<br>(65 – 74%)                                                        | Distinction<br>(75 – 84%)                                                         | High Distinction<br>(85 – 100%)                                            |

## Assessment 2

### Assessment type: Quiz

**Purpose:** This assessment will allow students to demonstrate that they have understood the concepts covered in weeks 1 to 5. This assessment contributes to learning outcomes a and b.

**Value:** 15%

**Due date:** Week 6

**Task Details:** The quiz will consist of multiple-choice and short-answer questions. Some questions will require knowledge of the calculations discussed between weeks 1 and 5.

### Submission:

This quiz could take place at any time during the 3-hour class session, hence students must ensure they are present from the start of their class in week 5.

To complete the exam, students will need to:

1. Be on time.
2. Use a computer.
3. Attend their enrolled class in person to do the quiz unless their enrolment allows online attendance.
4. Online students must ensure that the computer has a working camera. If the computer does not have a working camera, students must login using both a computer and a mobile phone to ensure they are visible to the lecturer throughout the exam.
5. Have a pen, paper and calculator.
6. Avoid copying answers from the lecture, textbook or an online source including AI to avoid receiving a zero mark for the short-answer question(s).

Students who fail to attend the exam and wish to request a make-up exam must follow the special consideration process and provide relevant evidence explaining why they have missed their quiz.

### Marking Rubric for Assessment: 2

**Value:** 15%

| Criteria                        | Fail<br>(0 –49%)                 | Pass (50<br>–64%)                                      | Credit (65<br>–74%)                                    | Distinction (75<br>–84%)                               | High<br>Distinction (85<br>–100%) |

## Assessment 3

**Assessment type:** Group Project (3500 words (+/-) 10%). Students will form groups of 4-5 students as directed by the lecturer.

**Purpose:** This assessment allows students to apply IT project management concepts, methodologies, techniques and tools to manage an IT project. This assessment contributes to learning outcomes a, b, c and d.

**Value:** 35% (Report 25%, Presentation 10%)

**Due date:** Week 10 - Week 11

**Submission:** Submit the completed written project report and the presentation on Moodle. Reports must be submitted using a word document format. PDF submissions will not be accepted.

### Assessment topic:

### **Project Background:**

A Helping Hand is an Australian charity that helps people in Australia and overseas. Their work in Australia involves serving hot meals to the homeless, providing food packs to families in need and companionship to sick children and the elderly. Overseas, the charity employs a nurse to support the Naga Community in the Philippines and runs an Operational Therapy Centre to help children. The charity also runs a yearly mission where volunteers travel to various countries to deliver medical aid and support the vulnerable.

### **Project Objective:**

A Helping Hand has identified the inefficient way in which it currently operates. This inefficiency means the charity is unable to easily maintain compliance with regulatory requirements (e.g. WWCC monitoring) nor easily fill available shifts and engage with current and prospective stakeholders. To solve the issue, the charity has approached you to develop a mobile (i.e. IOS and Android) and web applications. The charity suggested having an app which facilitates administration (i.e. Login Creations, Registration Requests and Password Resets), Donations and Purchases, Filing and Adding Rosters/Events, Groups and Communication, Knowledge Management and Reporting. They indicate some features below, though expect you to suggest additional features which can make the charity's running more efficiently:

- Super Users can create logins so that Volunteers, Program Coordinators and Shift Leaders can use the system
- Super Users can view the filled forms of prospective Volunteers and send them tasks to complete
- Super Users can add and edit items (e.g. images, pricing, description, etc) to the sales catalogue to allow Users to make purchases.
- Super Users can create various parent events and sub events (new and re-occurring) so that Volunteers and Shift Leaders could express their interest in attending
- Super Users can create Program Coordinator logins and assign them to specific Rosters or Events so that they can manage those rosters that run throughout the year (e.g. Sunday roster) (i.e. Program Coordinators should only have admin privileges for that specific roster)
- Super Users can assign Volunteers and Shift Leaders who have expressed their interest to contribute to events and rosters so that the charity can serve its customers
- Super Users can create groups and add Volunteers and Shift Leaders and their contact details to them so that Program Coordinators could send a broadcast, a notification, a message or email regarding shifts
- Super Users can send a broadcast, a notification, an sms or email to Volunteers and Shift Leaders to inform them about upcoming Events and Rosters
- Super Users can load files which Application Users could access and learn from to fulfil their duties
- Super Users can run reports and find Volunteers who has expired documentation (e.g. WWCC, training, etc)
- Super Users can run a report which shows how long a Volunteers have been engaged with the charity so that they can be officially recognised
- Program Coordinators can view the Volunteers and Shift Leaders in their roster or event who have expired documentation (e.g. WWCC, training) to inform them and not assign them work
- Program Coordinators can create main rosters and events, monthly rosters or sub events, and family specific rosters and events if needed so that Volunteers could register their interest in attending various shifts (e.g. Punchbowl Home Visits Category, Punchbowl Home Visits December

2020 Sub Category, Family Name Sub Sub Category) and roles (e.g. Van Driver, Volunteer)

- Program Coordinators can send a broadcast, a notification, an sms or email to Volunteers and Shift Leaders registered in their roster to inform them about upcoming Events and Rosters
- Program Coordinators can run a report which shows how long a Volunteer have been engaged with the charity so that he/she can be officially recognised
- Home Visits Coordinators can copy a Home Visits Monthly Sub Roster or Event and the embedded Home Visits Per Family Roster and Event and edit them to organise the Roster or Event of the following month
- Home Visits Coordinators could insert information and history about new families and/or read the background information of existing families before filling the home visit food packs to better serve clients
- Home Visits Coordinators can run a report which shows which Volunteers have previously visited a family so that they can allocate them to specific families
- Food Run Coordinators can assign Volunteers and Shift Leaders who have expressed interest in contributing to their Events and Rosters so that the charity can serve its customers
- Food Run Coordinators can manually assign Volunteers and Shift Leaders to Events and Rosters so that the charity can successfully serve its customers.
- Volunteers can click on rosters and events and register their interest in attending as many of them as they would like
- Volunteers can view the Events/Shifts assigned to them and refuse or accept them
- Volunteers can read the background about families before attending a home visit to better serve clients
- Shift Leaders can complete a summary about a shift attendees' and report any relevant information (e.g. feedback, information about an incident).
- Users can fill a form to register as Volunteers
- The application can automatically assign new Volunteers to specific event categories based on their volunteering preferences in the registration form to allow them to indicate availability to fill available shifts.
- The Application can record the status of completed tasks so that users could be registered as Volunteers
- The Application can keep a record of the roles that volunteers were assigned for each shift to conduct follow ups as required (e.g. Van Driver, Volunteer)
- The Application can send automatic reminders to Volunteers about their events and shifts
- The Application can send Super Users and Coordinators reminders about the Volunteering anniversary of Volunteers so that they can be officially recognised
- 

A Helping Hand expects you to identify all prospective system users and apply both the PMBOK and Agile project management methodologies. For agile, they expect you to develop user stories that relate to various system users. They expect these stories to consider more than the basic functions they have mentioned above. They provided you with the following stories as a guide:

- As an Program Coordinator, I would like to send a communication so that Volunteers and Shift Leaders can be informed about the upcoming events and rosters
- As a Super User, I would like to create logins so that Volunteers, Program Coordinators and Shift

Leaders can use the system

○

From the approval date, you have 5 months to complete the project. A budget was not proposed. The client expects to employ you on a fixed price contract hence you must research the market rates of required personnel to develop a reasonable budget.

You must focus on the required functionalities and think about extra functionalities that could benefit the client. The overall tasks are listed below:

**Task 1:** Use PMBOK's five project life cycle phases to develop the project charter, stakeholder register, project plan, budget, schedule and risk register. We expect you to use proper formatting and labelling for the produced content. For example, a summary budget and a risk register should be presented and properly formatted using an excel table. The risk register should be presented in landscape. Note: it is important that you develop some documents using MS project.

**Task 2:** Use the Agile project management methodology to develop a product backlog and the project tasks for 2 to 4 sprints. It is important to use slack for all communication and Trello or Jira for creating a Kanban board. For task 2, we expect you to introduce agile, define users, write the user stories and the acceptance criteria, and present the stories across 2 to 4 sprints. You must also show on Trello/Jira some of the details entered for a few user stories.

**Task 3:** Compare the PMBOK to the Kanban methodology features and explain when each methodology should be used.

**Task 4:** Discuss the use of clients' data by Information technology companies and the ethicality of this use.

**The project report must include at least the following sections:**

- Cover page
- Executive summary
- Table of contents
- Introduction and business case
- Task 1
- Task 2
- Task 3
- Task 4
- Conclusion
- References

**Presentation:** Pitch your proposal in a 10 minutes group presentation to be conducted in week 11.

Details about the presentation is shown below:

- The presentation must be supported by appropriate visual aids.
- A minimum of 5 slides and a maximum of 7 slides is allowed.
- All group members are required to present.
- Optimise the oral presentation grade by not simply reading the written report but also presenting conclusions drawn from the analysis.
- Demonstrate positive verbal and non-verbal communication skills.

**NB:** Please note that students will be asked to evaluate the work of fellow team members. Team members who fail to equally contribute to the assessment will receive a mark reduction.

Marking Rubric Assessment 4: Group Work (25%)

| Criteria                                                                                        | Fail<br>(0 – 49%)                                                                                                                                         | Pass<br>(50 – 64%)                                                                                                  | Credit<br>(65 – 74%)                                                                                                                    | Distinction<br>(75 – 84%)                                                                                                        | High Distinction<br>(85 – 100%)                                                                                                                          |

#### Assessment 4

**Assessment Type:** Final exam - individual assessment.

**Duration:** On-campus: 2 hours + 10 mins reading time.

**Purpose:** The purpose of the final examination is to test students' understanding of the subject's concepts and their ability to apply these concepts. This assessment contributes specifically to learning outcomes a, b and d.

**Value:** 35%

**Due Date:** The final exam will be held in the official KOI exam period of the trimester. The specific date and time will be posted towards the end of the trimester.

**Topic:** The examination may cover content from any part of the subject.

**Task Details:** The exam consists of a mix of questions which may include short answer, long answer, calculation, or scenario questions. The questions are derived from topics covered in the lectures and tutorials.

### 3.2 General information about assessment

#### a) Late Penalties and Extensions

An important part of business life and key to achieving KOI's graduate outcome of Professional Skills is the ability to manage workloads and meet deadlines. Completing assessment tasks on time is a good way to master these habits.

Students who miss mid-trimester tests and final exams without a valid and accepted reason may not be granted a deferred exam and will be awarded 0 marks for the assessment item. Assessment items which are missed or submitted after the due date/time will attract a penalty unless there is a compelling reason (see below). These penalties are designed to encourage students to develop good time management practices, and to create equity for all students.

Any penalties applied will only be up to the maximum marks available for the specific piece of assessment attracting the penalty.

Late penalties, granting of extensions and deferred exams are based on the following:

#### *In Class Tests and Quizzes (excluding Mid-Trimester Tests)*

- Generally, extensions are not permitted. A make-up test may only be permitted under very special circumstances where acceptable supporting evidence of illness, hardship or unavoidable problems preventing completion of the assessment is provided (see section (b) below). The procedures and timing to apply for a make-up test (only if available) are as shown in the section *Applying for an Extension* (see below).
- Missing a class test will result in 0 marks for that assessment item unless the above applies.

### *Written Assessments and Video Assessments*

- There is a late penalty of *5% of the total available marks* per calendar day unless an extension is approved (see *Applying for an Extension* section below).

### *Presentations*

- Generally, extensions are not permitted. Missing a presentation will result in 0 marks for that assessment item. The rules for make-up presentations are the same as for missing in-class tests (described above).

For group presentations, if serious circumstances prevent some members of the group from participating, the members of the group who are present should make their contributions as agreed. If a make-up presentation is approved, the other members of the group will be able to make their individual presentation later and will be marked according to the marking rubric. A video presentation may be used to facilitate the process.

### *Mid-Trimester Tests and Final Exams*

If students are unable to attend mid-trimester tests or final exams due to illness, hardship or some other unavoidable problem (acceptable to KOI), they must:

- Complete the Assignment Extension / Exam Deferment Form available by contacting [academic@koi.edu.au](mailto:academic@koi.edu.au) as soon as possible, *but no later than three (3) working days after the exam date*.
- Provide acceptable documentary evidence (see section (b) below).
- Agree to attend the deferred exam as set by KOI if a deferred exam is approved.

### *Deferred exam*

- There will only be one deferred exam offered.
- Marks obtained for the deferred exam will be the marks awarded for that assessment item.
- If you miss the deferred exam you will be awarded 0 marks for the assessment item. This may mean you are unable to pass the subject.

## **b) Applying for an Extension**

If students are unable to submit or attend an assessment when due, they must

- Complete the Assignment Extension / Exam Deferment Form available by contacting [academic@koi.edu.au](mailto:academic@koi.edu.au) as soon as possible, *but no later than three (3) working days of the assessment due date*.
- Provide acceptable documentary evidence in the form of a medical certificate, police report or some other appropriate evidence of illness or hardship, or a technician's report on problems with computer or communications technology, or a signed and witnessed statutory declaration explaining the circumstances.
- Students and lecturers / tutors will be advised of the outcome of the extension request as soon as practicable.

Please remember there is no guarantee of an extension being granted, and poor organisation is not a satisfactory reason to be granted an extension.

## **c) Referencing and Plagiarism**

Please remember that all sources used in assessment tasks must be suitably referenced.

Failure to acknowledge sources is plagiarism, and as such is a very serious academic issue. Students plagiarising run the risk of severe penalties ranging from a reduction in marks through to 0 marks for a first offence for a single assessment task, to exclusion from KOI in the most serious repeat cases. Exclusion has serious visa implications. The easiest way to avoid plagiarising is to reference all sources.

Harvard referencing is the required method – in-text referencing using Author's Surname (family name) and year of publication. A Referencing Guide, "Harvard Referencing", and a Referencing Tutorial can be found on the right-hand menu strip in Moodle on all subject pages.

An effective way to reference correctly is to use *Microsoft Word's* referencing function (please note that other versions and programs are likely to be different). To use the referencing function, click on the References Tab in the menu ribbon – students should choose *Harvard*.

*Authorship* is also an issue under plagiarism – KOI expects students to submit their own original work in both assessment and exams, or the original work of their group in the case of a group project. All students agree to a statement of authorship when submitting assessments online via Moodle, stating that the work submitted is their own original work.

The following are examples of academic misconduct and can attract severe penalties:

- Handing in work created by someone else (without acknowledgement), whether copied from another student, written by someone else, or from any published or electronic source, is fraud, and falls under the general Plagiarism guidelines.
- Copying / cheating in tests and exams is academic misconduct. Such incidents will be treated just as seriously as other forms of plagiarism.
- Students who willingly allow another student to copy their work in any assessment may be considered to assisting in copying/cheating, and similar penalties may be applied.

Where a subject coordinator considers that a student might have engaged in academic misconduct, KOI may require the student to undertake an additional oral exam as a part of the assessment for the subject, as a way of testing the student's understanding of their work.

Further information can be found on the KOI website.

#### **d) Reasonable Adjustment**

The Commonwealth Disability Discrimination Act (1992) makes it unlawful to treat people with a disability less fairly than people without a disability. In the context of this subject, the principle of Reasonable Adjustment is applied to ensure that participants with a disability have equitable access to all aspects of the learning for the subject. For assessment, this means that barriers to their demonstrating competence are removed wherever it is reasonably practical to do so.

Examples of reasonable adjustment in assessment may include:

- provision of an oral assessment, rather than a written assessment
- provision of extra time
- use of adaptive technology.

The focus of the adjusted assessment should be on enabling the student to demonstrate achievement of the learning outcomes for the subject, rather than on the method of assessment.

#### **e) Appeals Process**

Full details of the KOI *Assessment and Assessment Appeals Policy* may be obtained in hard copy from the Library, and on the KOI website [www.koi.edu.au](http://www.koi.edu.au) under *Policies and Forms*.

#### **Assessments and Mid-Trimester Exams:**

Where students are not satisfied with the results of an assessment, including mid-trimester exams, they have the right to appeal. The process is as follows:

- Discuss the assessment with their tutor or lecturer – students should identify where they feel more marks should have been awarded – students should provide valid reasons based on the marking guide provided for the assessment. Reasons such as “*I worked really hard*” are not considered valid.
- If still not satisfied, students should complete an Application for Review of Assessment Marks form, clearly explaining the reasons for seeking a review. This form is available from the KOI website under *Policies and Forms* and is also available at KOI Reception (Level 9, 11 York Street). The completed Application for Review of Assessment Marks form should be submitted as explained on the form with supporting evidence attached to [academic@koi.edu.au](mailto:academic@koi.edu.au).
- The form must be submitted within *ten (10) working days* of the return of the marked assessment, or within *five (5) working days* after the return of the assessment if the assessment is returned after the end of the trimester.

*Review of Grade – whole of subject and final exams:*

Where students are not satisfied with the results of the whole subject or with their final exam results, they have the right to request a Review of Grade – see the *Assessment and Assessment Appeals Policy* for more information.

An *Application for Review of Grade/Assessment Form* (available from the KOI Website under *Policies and Forms* and from KOI Reception at (Level 9, 11 York Street)) should be completed clearly explaining the grounds for the application. The completed application should be submitted as explained on the form, with supporting evidence attached to [academic@koi.edu.au](mailto:academic@koi.edu.au).
